Refer-A-Friend or Family Program

At Kyrene Medical Center, we appreciate the trust you place in us and want to say a big “Thank You” for referring your family and friends to our office. We are a Locally Owned and Family Oriented Primary Health Care Provider.

The ultimate compliment is when you tell others about our office. Our office is largely based on word-of-mouth referrals so we appreciate you referring your family and friends to our office.

To show how much we do appreciate your referral, we have instituted a “Refer a Friend or Family” Program so we can track them and say Thank you to you.

HERE IS HOW THE PROGRAM WORKS

- 1.) Pick up some “**Refer a Friend or Family**” cards from our office next time you come in.
- 2.) On the back of our business card there is a place for your name and a place for your family or friend’s name, print your name on the top line.
- 3.) Pass them out to your family and friends, who are not a part of our practice.
- 4.) Have your family or friend’s print their name on the bottom line
- 5.) When 10 (ten) members of your family/friend come to our office for medical care, you will receive a Thank You \$25 gift card to local restaurant (e.g. Olive Garden, Native New Yorker, Red Lobster, etc.).

Note:

1. Your friend or family must present your referral card or put your name in the “Referred by” section of our “New Patient Information” form so we can add it to your count.
2. The new friend or family member you refer must present your referral card in order to be entered into our “BIG THANK YOU GIFT” drawings.
3. Each new patient can only bring in one “Refer a Friend or Family” card.

WIN A “BIG THANK YOU GIFT”

We will have a drawing every 6 (six) months for 1 (one) “Thank You Gift”, you can keep such as an iPod Touch, Nintendo DS, Wii, etc. for those who have referred patients. The winner will be selected randomly from all of the “Refer a Friend” cards that have been turned in by new patients. The more friends or family members you refer, the greater your chances of winning!
